

Ranjith Kumar R

Java Full Stack Developer | Spring Boot · React · REST APIs | B.E. (Hons) CSE

offxranjith12@gmail.com | +91 6382323556 | linkedin.com/in/r-ranjith-kumar-036456334 | github.com/offxranjith12-tech

PROFESSIONAL SUMMARY

Full Stack Developer and final-year Computer Science (B.E. Hons) student specializing in Java and Spring Boot backend development with React-based front ends. Experienced through internships and academic projects in designing, coding, and enhancing scalable web-application components — building REST APIs, integrating MySQL and MongoDB databases, and delivering responsive user interfaces. Comfortable across the full software development lifecycle (SDLC) with agile collaboration, Git/GitHub version control, and hands-on testing and debugging. Seeking a Packaged App Developer internship to write clean, maintainable, high-performing Java software that meets real business needs.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL

Backend Development: Java, Spring Boot, REST APIs, Node.js, Express.js, Microservices fundamentals

Frontend Development: React.js, HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design

Databases: MySQL, MongoDB

Tools & Practices: Git, GitHub, VS Code, Postman, Agile, SDLC, Unit Testing & Debugging, Version Control

Soft Skills: Problem Solving, Communication, Adaptability, Team Collaboration

EXPERIENCE

TVK Technologies — Full Stack Developer Intern — Jul 2026 – Present

- Build and maintain full-stack web applications using Java, React.js, and REST APIs, developing responsive user interfaces and integrating backend services with MySQL/MongoDB databases.
- Collaborate within an agile team to design, code, and enhance software components, following the software development lifecycle (SDLC) and clean, maintainable coding standards.
- Manage source code with Git/GitHub version control and validate APIs through testing and debugging in Postman.

Adroit Technologies Innovative Solutions Pvt Ltd — Data Analyst Intern — Apr 2026

- Completed a virtual internship using IBM Cognos Analytics to build interactive dashboards and reports on real-time data.
- Strengthened data analysis, problem-solving, and understanding of structured (SQL) database systems.

PROJECTS

Behavioral Identity & Risk Intelligence System — Jan 2026

Tech stack: Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Developed a continuous behavioral authentication system using Java and Spring Boot to verify user identity throughout active sessions.
- Built dynamic trust scoring and anomaly detection backed by a MySQL REST API to flag unauthorized access while preserving a seamless user experience.
- Structured the codebase as clean, modular, maintainable Java components and validated endpoints through manual testing and debugging.

Recruitment Management System — Mar 2026

Tech stack: React.js, Node.js, Express.js, MongoDB, JavaScript

- Built a full-stack recruitment platform to manage job postings and candidate applications.
- Implemented candidate tracking, interview scheduling, and a recruiter dashboard using REST APIs and a MongoDB data layer.

EDUCATION

B.E. (Hons), Computer Science and Engineering — VV College of Engineering — 85% · 2023 – 2027 (Expected)

Higher Secondary (HSC) — S.M Kathar Meera Saibo Hr. Sec. School — 84% · 2022 – 2023

SSLC — S.M Kathar Meera Saibo Hr. Sec. School — 100% · 2020 – 2021

ACHIEVEMENTS

- Best Speaker and Best Top Performer, Project Punch 49 Spoken English Program — recognized for communication and active participation.
- Team project selected among the Top Projects out of 50 teams at VV Innovation Ignite 2026 for practical problem-solving and innovation.

LANGUAGES

Tamil (Native), English (Fluent)

Interests: Gardening, Cooking, Volleyball, Music
